SECTION 1. INTRODUCTION & INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE RFP

The Alaska Seafood Marketing Institute (ASMI) is soliciting detailed proposals to conduct annual research activities measuring general consumer awareness (China, Japan, Northern Europe, Western Europe and Central Europe), Japan hotel/restaurant/institution (HRI) perception related performance measures and trade performance measures, Brazil trade and HRI performance measures and China trade performance measures, as found in ASMI's Country Progress Reports (CPR). CPRs are the primary annual evaluation mechanism for USDA to monitor progress of programs funded under the Market Access program (MAP).

SEC. 1.02 BUDGET

The Alaska Seafood Marketing Institute (ASMI) estimates a budget not to exceed \$95,000 US Dollars (USD). The proposal should provide a detailed cost proposal for the following items:

- Proposal must include mechanism for capturing index measures and China, Brazil and Japan trade awareness-related performance measures in CPR and Japan and Brazil HRI awareness performance measures.
- Minimum of 20 total interviews of industry per trade and HRI program. Evaluator must be (or employ someone) fluent in local language.
- Consumer survey of each program's target audience on index measures and other performance measures with a minimum sample size of 750.
- Review of MAP year 2019 and 2020 CPRs and UES MAP year 2021 and 2022, ASMI documents reflecting program activities and results measured against UES goals and PMs; all of which are available from ASMI upon request.
- Review of information provided by ASMI staff and contractors.
- Proposals should illustrate additional services which will enhance the value of the applicant's services.

Proposals priced at more than **\$95,000 USD** will be considered non-responsive.

Payment for the contract is subject to funds already appropriated and identified.

SEC. 1.03 DEADLINE FOR RECEIPT OF PROPOSALS

Proposals must be received no later than **2:00 PM** prevailing Alaska Time on **MAY 13, 2022**. Late proposals or amendments will be disqualified and not opened or accepted for evaluation.

SEC. 1.04 PRIOR EXPERIENCE

In order for offers to be considered responsive offerors must meet this minimum prior experience requirement:

- **Every offeror to this RFP must demonstrate a minimum of three years of previous experience in providing comparable services.**

An offeror's failure to meet the minimum prior experience requirement will cause their proposal to be considered non-responsive and rejected.

SEC. 1.05 REQUIRED REVIEW

Offerors should carefully review this solicitation for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material should be made in writing and

received by the procurement officer at least ten days before the deadline for receipt of proposals. This will allow time for the issuance of any necessary amendments. It will also help prevent the opening of a defective proposal and exposure of offeror's proposals upon which award could not be made.

SEC. 1.06 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF PROPOSALS

All questions must be in writing and directed to the procurement officer. The interested party must confirm telephone conversations in writing.

Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the RFP. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the RFP. The procurement officer will make that decision.

PROCUREMENT OFFICER: **BECKY MONAGLE** – PHONE **907.465.5570** - TDD **711**

SEC. 1.07 RETURN INSTRUCTIONS

Proposals may be emailed to bmonagle@alaskaseafood.org. The email must contain the RFP number (RFP #2022-0808) in the subject line.

The **maximum** size of a single email (including all text and attachments) that can be received by the state is **20mb (megabytes)**. If the email containing the proposal exceeds this size, the proposal must be sent in multiple emails that are each less than 20 megabytes and each email must comply with the requirements described above.

Please note that email transmission is not instantaneous. Similar to sending a hard copy proposal, if you are emailing your proposal, the state recommends sending it enough ahead of time to ensure the email is delivered by the deadline for receipt of proposals.

It is the offeror's responsibility to contact the issuing agency by email at bmonagle@alaskaseafood.org or by phone at **907.465.5570** to confirm that the proposal has been received. The state is not responsible for unreadable, corrupt, or missing attachments.

SEC. 1.08 PROPOSAL CONTENTS

The following information must be included in all proposals.

(a) AUTHORIZED SIGNATURE

All proposals must be signed by an individual authorized to bind the offeror to the provisions of the RFP. Proposals must remain open and valid for at least 90-days from the date set as the deadline for receipt of proposals.

(b) OFFEROR'S CERTIFICATION

By signature on the proposal, offerors certify that they comply with the following:

- A. the laws of the State of Alaska;
- B. the applicable portion of the Federal Civil Rights Act of 1964;
- C. the Equal Employment Opportunity Act and the regulations issued thereunder by the federal government;
- D. the Americans with Disabilities Act of 1990 and the regulations issued thereunder by the federal government;

- E. all terms and conditions set out in this RFP;
- F. a condition that the proposal submitted was independently arrived at, without collusion, under penalty of perjury; and
- G. that the offers will remain open and valid for at least 90 days.

If any offeror fails to comply with [a] through [g] of this paragraph, the state reserves the right to disregard the proposal, terminate the contract, or consider the contractor in default.

(c) VENDOR TAX ID

A valid Vendor Tax ID, if applicable, must be submitted to the issuing office with the proposal or within five days of the state's request.

(d) CONFLICT OF INTEREST

Each proposal shall include a statement indicating whether or not the firm or any individuals working on the contract has a possible conflict of interest (e.g., currently employed by the State of Alaska or formerly employed by the State of Alaska within the past two years) and, if so, the nature of that conflict. The procurement officer reserves the right to **consider a proposal non-responsive and reject it** or cancel the award if any interest disclosed from any source could either give the appearance of a conflict or cause speculation as to the objectivity of the contract to be performed by the offeror.

SEC. 1.09 ASSISTANCE TO OFFERORS WITH A DISABILITY

Offerors with a disability may receive accommodation regarding the means of communicating this RFP or participating in the procurement process. For more information, contact the procurement officer no later than ten days prior to the deadline for receipt of proposals.

SEC. 1.10 AMENDMENTS TO PROPOSALS

Amendments to or withdrawals of proposals will only be allowed if acceptable requests are received prior to the deadline that is set for receipt of proposals. No amendments or withdrawals will be accepted after the deadline unless they are in response to the state's request in accordance with 2 AAC 12.290.

- Issue RFP **APRIL 11, 2022**
- Deadline for Receipt of Proposals **2 PM, MAY 13, 2022,**
- Proposal Evaluation Committee complete evaluation by **MAY 20, 2022,**

Upon written notice to the contractor, the state may set a different starting date for the contract. The state will not be responsible for any work done by the contractor, even work done in good faith, if it occurs prior to the contract start date set by the state.

SEC. 1.13 ALTERNATE PROPOSALS

Offerors may only submit one proposal for evaluation.

In accordance with 2 AAC 12.830 alternate proposals (proposals that offer something different than what is asked for) will be rejected.

SEC. 1.14 NEWS RELEASES

News releases related to this RFP will not be made without prior approval of the project director.

SECTION 2. BACKGROUND INFORMATION

SEC. 2.01 BACKGROUND INFORMATION

1. **ASMI's Mission:** The primary objective of the Alaska Seafood Marketing Institute is to create a dynamic, market-driven environment that will expand the global consumption of Alaska seafood. It accomplishes this by fostering growth opportunities with the food industry. ASMI's programs emphasize collaborative marketing and quality assurance efforts, and build the identity of Alaska Seafood as a brand.
2. **ASMI's Authority:** ASMI was established by the Alaska State Legislature in 1981 as a public corporation within the Department of Commerce, Community and Economic Development (DCCED) State of Alaska. As a cooperative effort between the State of Alaska and private industry, the Institute has four legislative mandates: 1) to promote all species of Alaska seafood worldwide; 2) to maintain and promote quality awareness from point of harvest to final distribution; 3) to disseminate information on prices paid and market conditions for raw salmon and salmon products; and, 4) investigate new product forms and future markets for Alaska salmon.
ASMI is governed by a seven-member Board of Directors appointed by the governor of Alaska. The board consists of five processors and two harvesters. Five standing committees provide ASMI's board and staff with input and promotional direction. Staff is located in Juneau, Alaska, which is the corporate headquarters.
3. **Current Program:** ASMI has been a participant in the US Department of Agriculture (USDA) Market Access Program (MAP) since 1986. Current year funding is roughly US \$9 million including industry contributions.

ASMI's International program employs its monies by developing and executing generic marketing and promotional programs, directed toward, retail, HRI and consumer markets. All marketing plans and budgets are adopted and approved annually by ASMI's Board of Directors.

Specific industry conditions are addressed by ASMI and include:

1. World-wide farmed salmon production has surpassed the Alaska harvest. Alaska seafood cannot compete with aquaculture on the basis of cost alone. Negative factors include:
 - Cost of remote harvesting and processing operations is high. Cost of transporting finished product to market is high, particularly for fresh product. This challenge will become more acute with rising fuel cost.
 - Variable supply introduces risk for large-scale business development in the processing and purchase of Alaska seafood.ASMI aims to increase the value of the Alaska seafood resource by differentiating Alaska seafood as coming from Alaska- a pure and pristine environment, our fisheries are managed for sustainability, wild and natural.
2. Alaska's commitment to sustainable management comes at significant cost with respect to productivity, efficiency and full utilization of Alaska seafood resources. Alaska seafood remains abundant, stable, high in quality and value, however the market must be cultivated to offset Alaska's worldwide market share.
3. Sustainability is a growing concern for retailers worldwide. ASMI aims to achieve an overall acceptance in the international marketplace that Alaska seafood is sustainable:
 - Since 1959, the Alaska constitution has mandated that "fish...be utilized, developed and maintained on the sustained yield principle"
 - Every aspect of Alaska's fisheries have been strictly regulated, closely monitored and rigidly enforced for nearly five decades

4. There is a general perception that fresh farmed seafood is preferable to previously frozen or frozen wild Alaska seafood. ASMI seeks to raise the value of frozen and previously frozen Alaska seafood.

International Program Situation Analysis

Alaska seafood products compete for “share of plate” with other proteins. ASMI’s International Program’s mission is to increase the economic value of the Alaska seafood resource through:

- Increasing positive awareness of the Alaska Seafood brand
- Collaborative marketing programs that align ASMI and industry marketing efforts for maximum impact within the food industry
- Long-term proactive marketing planning
- Quality assurance, technical industry analysis, education, advocacy and research
- Prudent, efficient fiscal management

The ASMI International Program will continue in its present marketing mode and strive to sustain its current posture.

The following is ASMI’s FY23 General Approach:

- The international program will work towards achieving ASMI’s mission by capitalizing on opportunities for Alaska Seafood in ASMI’s target markets and seeking to expand markets.
- The international program will continue to build sustainability into the foundation of our brand identity.
- ASMI will position the Alaska Seafood brand as a trustworthy and safe choice that is a good value for both the trade and consumer.
- Convenience, health and value remain important to consumers: ASMI will continue to highlight how Alaska Seafood aligns with these interests. A key component of this strategy will be offering a variety of recipes that feature both premium and low cost ingredients.
- ASMI will continue our work in all ASMI’s targeted international markets because having multiple markets assists in our ability to achieve our mission.
- ASMI will remain vigilant in adapting as circumstances evolve.

Messages

ASMI will focus on building the brand around its core messages rather than reacting to short-term issues. ASMI will focus on the positive aspects of our differentiating factors. The following are the ASMI International Program’s key messages:

(i) Alaska Message

ASMI will continue to differentiate Alaska Seafood from all other seafood by calling out “Alaska” and therefore tapping into the positive perception consumers and the trade has of Alaska. ASMI will work to reinforce as well as add to that perception by delivering the key messaging outlined below in our marketing activities.

(ii) Sustainability Message

ASMI will continue to educate the trade on Alaska's long-standing commitment to sustainability and will incorporate the sustainability message into the core brand identity.

(iii) Wild Message

ASMI will increase its emphasis on the "wild" aspect of Alaska Seafood in its messaging. With the general decline in wild stocks worldwide, wild is becoming more of a differentiating factor. Alaska is uniquely positioned to benefit from increased emphasis on the wild message, as the state prohibits all types of finfish farming.

Pure and Pristine Message

ASMI will highlight the pure and pristine waters Alaska Seafood comes from as a point of differentiation.

Key points on the pure and pristine message are as follows:

- Alaska has 34,000 miles of coast line
- Alaska is thousands of miles away from large sources of pollution
- Alaska has a small population for its vast size

(iv) Health and Nutrition Messages

In light of the pandemic, both governments and consumers are becoming more health conscious. ASMI will continue to include the following health and nutrition points in its messaging:

- Alaska Seafood is a healthy alternative to other protein sources
- Alaska Seafood is among the richest sources of omega-3s
- Alaska Seafood contains a wide variety of minerals (including zinc, iron, calcium, selenium).
- Naturally high in many essential vitamins, Alaska Seafood contains vitamins E, C, D and A. Some varieties are very high in antioxidant E, which has proven to strengthen the immune system, and lower the risk of heart disease by reducing buildup of plaque in coronary arteries.

Strategy

ASMI conveys these messages through the following strategies:

Trade:

- Trade Public Relations- Trade public relations are designed to increase trade awareness of Alaska Seafood and to notify the trade of generic activities and opportunities to participate within the ASMI program;
- Retail Merchandising and e-commerce – In-store displays, online displays and offerings, consumer contests and consumer demonstrations remain one of ASMI's most-effective promotional tools in achieving increases in trade and consumer awareness, product origin identification and increases in sales volume. One of the main objectives is to ensure that wild Alaska seafood achieves a strong and positive differentiation over competitive farmed seafood, through origin identification and its quality, taste, sustainability and other attributes at the actual point of sale when the consumer is in the retail store or shopping online;
- Website and Social Media – ASMI maintains overseas websites and social media pages to address the

specific needs of each overseas region. The sites contain information for consumers, trade and journalists and also offers the ability to access and download a range of information and recipe based materials covering all Alaska Seafood species;

- Trade Shows – Trade shows offer an opportunity to improve trade relations and educate trade of the pure, natural and sustainable aspects of Alaska Seafood products;
- Buyers Education – In some regions ASMI conducts Alaska Seafood Buyers Education Programs in order to maintain and develop sustainable trade relationships with existing and younger generations;
- Trade Research – An evaluation and research study is conducted by a third party to measure trade awareness levels and attitudes towards Alaska seafood products within the region;

HRI:

- Foodservice Promotions – ASMI selectively targets major foodservice distributors with promotional support. ASMI also seeks to organize promotions directly with hotel and restaurant chains;
- Foodservice Advertising/Public relations – Foodservice advertising is an effective method of educating and impacting foodservice decision makers through press releases and generic recipes;
- Chef Training Seminars/ Training Schools – In some ASMI regions ASMI conducts chef training seminars in order to educate chefs about proper handling and cooking technique for Alaska seafood; and
- Foodservice Trade Shows – In some regions ASMI attends HRI tradeshow in order to offer generic product information materials that communicate the advantages that Alaska Seafood offers the professional chef. Product tastings and chef demonstrations will take place at the booth if budget allows.

Note that if the subcontractor will not be performing work within Alaska, they will not be required to hold an Alaska business license.

SEC. 3.09 JOINT VENTURES

Joint ventures will not be allowed.

SEC. 3.10 RIGHT TO INSPECT PLACE OF BUSINESS

SEC. 3.11 CONTRACT PERSONNEL

Any change of the project team members or subcontractors named in the proposal must be approved, in advance and in writing, by the project director or procurement officer. Changes that are not approved by the state may be grounds for the state to terminate the contract.

SEC. 3.12 INSPECTION & MODIFICATION - REIMBURSEMENT FOR UNACCEPTABLE DELIVERABLES

The state may employ all reasonable means to ensure that the work is progressing and being performed in compliance with the contract. The project director

or procurement officer may instruct the contractor to make corrections or modifications if needed in order to accomplish the contract's intent. The contractor will not unreasonably withhold such changes.

Substantial failure of the contractor to perform the contract may cause the state to terminate the contract. In this event, the state may require the contractor to reimburse monies paid (based on the identified portion of unacceptable work received) and may seek associated damages.

SEC. 3.13 CONTRACT CHANGES - UNANTICIPATED AMENDMENTS

During the course of this contract, the contractor may be required to perform additional work. That work will be within the general scope of the initial contract. When additional work is required, the project director will provide the contractor a written description of the additional work and request the contractor to submit a firm time schedule for accomplishing the additional work and a firm price for the additional work. Cost and pricing data must be provided to justify the cost of such amendments per AS 36.30.400.

The contractor will not commence additional work until the procurement officer has secured any required state approvals necessary for the amendment and issued a written contract amendment, approved by ASMI's Executive Director.

SEC. 3.14 NONDISCLOSURE AND CONFIDENTIALITY

Contractor agrees that all confidential information shall be used only for purposes of providing the deliverables and performing the services specified herein and shall not disseminate or allow dissemination of confidential information except as provided for in this section. If the contractor receives no objection from the state, it may release the confidential information within 30 days. Notice of the requested disclosure of confidential information by the contractor must be provided to the state within a reasonable time after the contractor's receipt of notice of the requested disclosure and, upon request of the state, shall seek to obtain legal protection from the release of the confidential information.

The following information shall not be considered confidential information: information previously known to be public information when received from the other party; information freely available to the general public; information which now is or hereafter becomes publicly known by other than a breach of confidentiality hereof; or information which is disclosed by a party pursuant to subpoena or other legal process and which as a result becomes lawfully obtainable by the general public.

SEC. 3.15 INDEMNIFICATION

The contractor shall indemnify, hold harmless, and defend the contracting agency from and against any claim of, or liability for error, omission or negligent act of the contractor under this agreement. The contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and the independent negligence of the contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. "Contractor" and "contracting agency", as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term "independent negligence" is negligence other than in the contracting agency's selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor's work.

SEC. 3.16 INSURANCE REQUIREMENTS

Without limiting contractor's indemnification, it is agreed that contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits.

Certificates of Insurance must be furnished to the procurement officer prior to beginning work and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. SECTION 4. PROPOSAL FORMAT AND CONTENT

SEC. 4.01 PROPOSAL FORMAT AND CONTENT

The state discourages overly lengthy and costly proposals, however, in order for the state to evaluate proposals fairly and completely, offerors must follow the format set out in this RFP and provide all information requested.

SEC. 4.02 INTRODUCTION

- Proposals must include the complete name and address of offeror's firm and the name, mailing address, internet URL, and telephone number. Include name, title, and email address of the individual who will serve as individual's primary contact.
- Number of years in business under above name
- Total years in business, including other names (minimum 3 years)
- Number of offices and locations
- List other affiliated agencies, if any
- Which office would service the ASMI account?
- Total number of personnel currently employed on a full-time basis
- Provide a list of clients that your company has done similar work for during the past three (3) years

Proposals must confirm that the offeror will comply with all provisions in this RFP; and, if applicable, provide notice that the firm qualifies as an Alaskan bidder. Proposals must be signed by a company officer empowered to bind the company. An offeror's failure to include these items in the proposals may cause the proposal to be determined to be non-responsive and the proposal may be rejected.

SEC. 4.03 UNDERSTANDING OF THE PROJECT

Offerors must provide comprehensive narrative statements that illustrate their understanding of the requirements of the project and the project schedule.

SEC. 4.04 METHODOLOGY USED FOR THE PROJECT

Offerors expects the study to have the following three components:

- Executive Summary
- Audit and Evaluation of ASMI's existing constraints and performance measures
- Evaluation methodology including sample sizes

Following is a suggested approach to component 2:

Component 2: Marketing Audit

The marketing audit is intended to assemble information about the activities, budgets and impact of ASMI's programs internationally, on an individual level and as a whole. It will include a review of the performance measures necessary to determine:

Current levels of consumer, trade and HRI attitudes toward and awareness of Alaska seafood attributes. Based on these findings, examine the relevancy of ASMI's existing constraints and performance measures and provide suggestions for future messaging and program improvements.

Minimum Proposal Requirements

RFP respondents are advised that ASMI has budgeted on a maximum \$95,000 per year for this study. We anticipate that the study requires approximately the following:

- Proposal must include mechanism for capturing index measures and China, Brazil and Japan trade awareness-related performance measures in CPR and Japan and Brazil HRI awareness performance measures.
- Minimum of 20 total interviews of industry per trade and HRI program. Evaluator must be (or employ someone) fluent in local language.
- Consumer survey of each program's target audience on index measures and other performance measures with a minimum sample size of 750.
- Review of MAP year 2019 and 2020 CPRs and UES MAP year 2022 and 2023, ASMI documents reflecting program activities and results measured against UES goals and PMs; all of which are available from ASMI upon request.
- Review of information provided by ASMI staff and contractors.
- Proposals should illustrate additional services which will enhance the value of the applicant's services.

ASMI makes two important stipulations concerning the proposed work:

- Contractor agrees not to utilize or release any portion of study findings, or research, by any means of dissemination, without the prior written consent of ASMI.
- All work must be completed by October 15 of each year. Due to the timing of European holidays, exceptions may be made.

SEC. 4.05 MANAGEMENT PLAN FOR THE PROJECT

Offerors must provide comprehensive narrative statements that set out the management plan they intend to follow and illustrate how the plan will serve to accomplish the work and meet the state's project schedule.

SEC. 4.06 EXPERIENCE AND QUALIFICATIONS

Offerors must provide a detailed and precise discussion, including examples and/or documentation, of meeting each Minimum Requirement established in section 1.04 Prior Experience in this RFP. Limit discussion to the meeting of the minimum requirements. And

- Provide a detailed discussion of the offeror's experience in evaluation of export commodity/seafood marketing programs.
- Provide the name of the lead or primary person(s) for each project, by title, duties, and approximate percentage of time that will be dedicated to the project. If the principal(s) is(are) not dedicated full time to this project, provide an approximate percentage of time allocated for other assigned accounts/duties.
- Describe qualifications and credentials of assigned personnel along with a copy of his/her resume.

SEC. 6.04 CLARIFICATION OF OFFERS

In order to determine if a proposal is reasonably susceptible for award, communications by the procurement officer or the proposal evaluation committee (PEC) are permitted with an offeror to clarify uncertainties or eliminate confusion concerning the contents of a proposal. Clarifications may not result in a material or substantive change to the proposal. The evaluation by the procurement officer or the PEC may be adjusted as a result of a clarification under this section.

SEC. 6.05 DISCUSSIONS WITH OFFERORS

The state may conduct discussions with offerors in accordance with AS 36.30.240 and 2 AAC 12.290. The purpose of these discussions will be to ensure full understanding of the requirements of the RFP and proposal. Discussions will be limited to specific sections of the RFP or proposal identified by the procurement officer.

Discussions will only be held with offerors who have submitted a proposal deemed reasonably susceptible for award by the procurement officer. Discussions, if held, will be after initial evaluation of proposals by the procurement officer or the PEC. If modifications are made as a result of these discussions they will be put in writing. Following discussions, the procurement officer may set a time for best and final proposal submissions from those offerors with whom discussions were held. Proposals may be reevaluated after receipt of best and final proposal submissions.

If an offeror does not submit a best and final proposal or a notice of withdrawal, the offeror's immediate previous proposal is considered the offeror's best and final proposal.

Evaluations may be adjusted as a result of receiving new or amended proposals.

SEC. 6.07 CONTRACT NEGOTIATION

After final evaluation, the procurement officer may negotiate with the offeror of the highest-ranked proposal. Negotiations, if held, shall be within the scope of the request for proposals and limited to those items which would not have an effect on the ranking of proposals. SEC. 6.10 PROTEST

AS 36.30.560 provides that an interested party may protest the content of the RFP.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or offeror whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the procurement officer at least ten days prior to the deadline for receipt of proposals.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If an offeror wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing, by the procurement officer within ten days after the date the Notice of Intent to Award the contract is issued.

A protester must have submitted a proposal in order to have sufficient standing to protest the proposed award of a contract. Protests must include the following information:

- the name, address, and telephone number of the protester;
- the signature of the protester or the protester's representative;
- identification of the contracting agency and the solicitation or contract at issue;
- a detailed statement of the legal and factual grounds of the protest including copies of relevant documents; and the form of relief requested.

Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.

The procurement officer will issue a written response to the protest. The response will set out the procurement officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All offerors will be notified of any protest. The review of protests, decisions of the procurement officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."

To take advantage of these preferences, a business or individual must be on the appropriate Division of Vocational Rehabilitation list prior to the time designated for receipt of proposals. Offerors must attach a copy of their certification letter to the proposal. **An offeror's failure to provide this certification letter with their proposal will cause the state to disallow the preference.**

An offeror does not need to complete the Alaska Veteran Preference questions on the form if not claiming the Alaska Veteran Preference. An offeror's failure to provide this completed form with their proposal will cause the state to disallow the preference.

SEC. 6.13 ALASKA VETERAN PREFERENCE
