SECTION 1. INTRODUCTION & INSTRUCTIONS

SEC. 1.01 PURPOSE OF THE RFP

The Alaska Seafood Marketing Institute (ASMI) is soliciting detailed proposals for the construction and furnishing of its pavilion at the 2025 Seafood Expo Global (SEG). SEG will take place in Barcelona, Spain from May 6-8, 2025.

SEC. 1.02 BUDGET

The Alaska Seafood Marketing Institute (ASMI) estimates a budget not to exceed \$310,000 US Dollars (USD) for completion of this project with the caveat that some elements will be produced one time only and that future years should see cost reductions. Proposals priced at more than **\$310,000 USD** will be considered non-responsive. Please identify what initial expenses will be borne in the first year but will be used for future shows as a cost savings. Storage fees should also be outlined. It is acceptable to break out a price option with and without an upstairs lounge.

The offeror should also provide billing structure for individual co-exhibitor company requests but note that these expenses are NOT included in the \$310,000 ceiling as they would be billed to individual companies.

Payment for the contract is subject to funds already appropriated and identified.

SEC. 1.03 DEADLINE FOR RECEIPT OF PROPOSALS

Proposals must be received no later than **2:00 PM** prevailing Alaska Time on **NOVEMBER 20, 2024**. Late proposals or amendments will be disqualified and not opened or accepted for evaluation.

SEC. 1.04 PRIOR EXPERIENCE

In order for offers to be considered responsive offerors must meet these minimum prior experience requirements:

- **For at least three of the last five years, the primary business of the offeror must be building stands for trade shows.**
- **Fluent in English, spoken and written.**
- **Offeror must have an office in Barcelona, Spain or offer examples of large trade show pavilions executed by the offeror in Barcelona in the last two years.**

An offeror's failure to meet these minimum prior experience requirements will cause their proposal to be considered non-responsive and rejected.

SEC. 1.05 REQUIRED REVIEW

Offerors should carefully review this solicitation for defects and questionable or objectionable material. Comments concerning defects and questionable or objectionable material should be made in writing and received by the procurement officer at least ten days before the deadline for receipt of proposals. This will allow time for the issuance of any necessary amendments. It will also help prevent the opening of a defective proposal and exposure of offeror's proposals upon which award could not be made.

SEC. 1.06 QUESTIONS PRIOR TO DEADLINE FOR RECEIPT OF PROPOSALS

All questions must be in writing and directed to the procurement officer. The interested party must confirm telephone conversations in writing.

Two types of questions generally arise. One may be answered by directing the questioner to a specific section of the RFP. These questions may be answered over the telephone. Other questions may be more complex and may require a written amendment to the RFP. The procurement officer will make that decision.

PROCUREMENT OFFICER: **BECKY MONAGLE** – PHONE **907.465.5570** - TDD **711**

SEC. 1.07 RETURN INSTRUCTIONS

Proposals may be emailed to bmonagle@alaskaseafood.org. The email must contain the RFP number (RFP 2025-0827) in the subject line.

The **maximum** size of a single email (including all text and attachments) that can be received by the state is **20mb (megabytes)**. If the email containing the proposal exceeds this size, the proposal must be sent in multiple emails that are each less than 20 megabytes and each email must comply with the requirements described above.

Please note that email transmission is not instantaneous. Similar to sending a hard copy proposal, if you are emailing your proposal, the state recommends sending it enough ahead of time to ensure the email is delivered by the deadline for receipt of proposals.

It is the offeror's responsibility to contact the issuing agency by email at bmonagle@alaskaseafood.org or by phone at **907.465.5570** to confirm that the proposal has been received. The state is not responsible for unreadable, corrupt, or missing attachments.

SEC. 1.08 PROPOSAL CONTENTS

The following information must be included in all proposals.

(a) AUTHORIZED SIGNATURE

All proposals must be signed by an individual authorized to bind the offeror to the provisions of the RFP. Proposals must remain open and valid for at least 90-days from the date set as the deadline for receipt of proposals.

(b) OFFEROR'S CERTIFICATION

By signature on the proposal, offerors certify that they comply with the following:

- A. the laws of the State of Alaska;
- B. the applicable portion of the Federal Civil Rights Act of 1964;
- C. the Equal Employment Opportunity Act and the regulations issued thereunder by the federal government;
- D. the Americans with Disabilities Act of 1990 and the regulations issued thereunder by the federal government;
- E. all terms and conditions set out in this RFP;

- F. a condition that the proposal submitted was independently arrived at, without collusion, under penalty of perjury; and
- G. that the offers will remain open and valid for at least 90 days.

If any offeror fails to comply with [a] through [g] of this paragraph, the state reserves the right to disregard the proposal, terminate the contract, or consider the contractor in default.

(c) VENDOR TAX ID

A valid Vendor Tax ID, if applicable, must be submitted to the issuing office with the proposal or within five days of the state's request.

(d) CONFLICT OF INTEREST

Each proposal shall include a statement indicating whether or not the firm or any individuals working on the contract has a possible conflict of interest (e.g., currently employed by the State of Alaska or formerly employed by the State of Alaska within the past two years) and, if so, the nature of that conflict. The procurement officer reserves the right to **consider a proposal non-responsive and reject it** or cancel the award if any interest disclosed from any source could either give the appearance of a conflict or cause speculation as to the objectivity of the contract to be performed by the offeror.

SEC. 1.09 ASSISTANCE TO OFFERORS WITH A DISABILITY

Offerors with a disability may receive accommodation regarding the means of communicating this RFP or participating in the procurement process. For more information, contact the procurement officer no later than ten days prior to the deadline for receipt of proposals.

SEC. 1.10 AMENDMENTS TO PROPOSALS

Amendments to or withdrawals of proposals will only be allowed if acceptable requests are received prior to the deadline that is set for receipt of proposals. No amendments or withdrawals will be accepted after the deadline unless they are in response to the state's request in accordance with 2 AAC 12.290.

SEC. 1.11 AMENDMENTS TO THE RFP

If an amendment is issued, it will be provided to all who were notified of the RFP and to those who have registered with the procurement officer after receiving the RFP from the State of Alaska Online Public Notice website.

SEC. 1.12 RFP SCHEDULE

The RFP schedule set out herein represents the State of Alaska's best estimate of the schedule that will be followed. If a component of this schedule, such as the deadline for receipt of proposals, is delayed, the rest of the schedule may be shifted accordingly. All times are Alaska Time.

- Issue RFP **OCTOBER 16, 2024,**
- Deadline for Receipt of Proposals **2 PM, NOVEMBER 20, 2024,**
- Proposal Evaluation Committee complete evaluation by **DECEMBER 2, 2024,**

This RFP does not, by itself, obligate the state. The state's obligation will commence when the contract is approved by the Alaska Seafood Marketing Institute's Executive Director. Upon written notice to the contractor, the state may set a different starting date for the contract. The state will not be responsible for any work done by the contractor, even work done in good faith, if it occurs prior to the contract start date set by the state.

SEC. 1.13 ALTERNATE PROPOSALS

Offerors may only submit one proposal for evaluation.

In accordance with 2 AAC 12.830 alternate proposals (proposals that offer something different than what is asked for) will be rejected.

SEC. 1.14 NEWS RELEASES

SECTION 2. BACKGROUND INFORMATION

SEC. 2.01 BACKGROUND INFORMATION

1. **ASMI's Mission:** The primary objective of the Alaska Seafood Marketing Institute is to create a dynamic, market- driven environment that will expand the global consumption of Alaska seafood. It accomplishes this by fostering growth opportunities with the food industry. ASMI's programs emphasize collaborative marketing and quality assurance efforts and build the identity of Alaska Seafood as a brand.
2. **ASMI's Authority:** ASMI was established by the Alaska State Legislature in 1981 as a public corporation within the Department of Commerce, Community and Economic Development (DCCED), State of Alaska. As a cooperative effort between the State of Alaska and private industry, the Institute has four legislative mandates: 1) to promote all species of Alaska seafood worldwide; 2) to maintain and promote quality awareness from point of harvest to final distribution; 3) to disseminate information on prices paid and market conditions for raw salmon and salmon products; and, 4) investigate new product forms and future markets for Alaska salmon.
ASMI is governed by a seven-member Board of Directors appointed by the governor of Alaska. The board consists of five processors and two harvesters. Five standing committees provide ASMI's board and staff with input and promotional direction. Staff are located in Juneau, Alaska, which is the corporate headquarters.
3. **Current Program:** ASMI was established to foster economic development of a renewable natural resource marketing organization with the mission of increasing the economic value of the Alaska seafood resource and increasing positive awareness of the Alaska Seafood brand. ASMI exists to serve the entire Alaska Seafood Industry, harvester, and processor alike. The Alaska Seafood industry is the largest private sector employer, and commercial fishing is a long-standing tradition practiced by many Alaskan families. ASMI is supported by an industry self-assessment tax and uses available public funds (State of Alaska and Federal money) to achieve marketing successes for the common good.

The Alaska Seafood Marketing Institute is a participant in the Emerging Markets Program (EMP), the Market Access Program (MAP), and the Regional Agricultural Promotion Program (RAPP), federal programs handled by the Foreign Agricultural Service (FAS) of the U.S. Department of Agriculture (USDA). Through these programs, ASMI is currently active in more than 52 countries through nine regional programs, : Japan, China, Southeast Asia, South America, Western Europe, Northern Europe, Central Europe, Southern Europe, MENAWA and Eastern Europe.

Alaska's constitutionally-mandated commitment to sustainable management practices, as well as the sustainability mandates in the Magnuson-Stevens Fishery Management and Conservation Act and Halibut Act, ensures that all commercially harvested seafood species in Alaska are sustainable. The Responsible Fisheries Management (RFM) Certification for Alaska fisheries provides credible verification of the product origin and management.

Alaska fisheries are among the largest in the world and compete with farmed seafood in the global markets.

Alaska's seafood portfolio includes:

- Five species of Alaska salmon,
- Whitefish species including Alaska pollock, Pacific cod, sablefish, halibut, herring, rockfish, Atka mackerel, and other groundfish species,

- Shellfish including shrimp, king crab, Dungeness crab, bairdi crab, snow crab, oysters, and scallops,

SECTION 3. SCOPE OF WORK & CONTRACT INFORMATION

SEC. 3.01 SCOPE OF WORK

The Alaska Seafood Marketing Institute (ASMI) is soliciting proposals for the construction and furnishing of its pavilion at the 2025 Seafood Expo Global (SEG) trade show. SEG will take place in Barcelona, Spain from May 6-8, 2025. Please review the following appendices for more details and specifications:

Appendix 1 – Stand plans and technical drawings for ASMI’s contracted exhibit space with SEG 2025 show manager

Appendix 2 –ASMI Brand & Logo Guidelines

Appendix 3 – Examples of ASMI pavilion designs at recent international trade shows, including Seafood Expo Global 2024

Appendix 4 – Design specifications/height restrictions for ASMI’s contracted exhibit space with SEG 2025 show manager

The Alaska Seafood Pavilion design and imagery should convey the theme of Alaskan harvesters working within and supporting Alaska’s living ecosystem of plants, animals and communities in the ocean and on land.

- Imagery of Alaska nature and Alaskan harvesters, retro-illuminated where possible, and natural structural elements and furnishings should be designed to present wild, natural and sustainable Alaska seafood in a spacious and well-illuminated pavilion.

The Alaska Seafood pavilion design should also respond to current sanitary and work concerns:

- Exhibitors and visitors will want to work in a relatively open space with good ventilation and lighting, lots of plants, no ceilings and low walls, although maintaining a sense of privacy,
- Exhibitors will be conducting numerous on-site meetings in the Pavilion as well as visiting their contacts, making it essential to have a balance between enough power and charging stations, work surfaces and cabinetry that allows for on-site work as well as storing belongings when leaving their booths,
- Exhibitors and visitors may appreciate additional pavilion-level air filtration and circulation

The Alaska Seafood Pavilion will primarily consist of booths and company tables that will be rented to co-exhibiting Alaska seafood companies. Co-exhibitors may decide to rent from one single booth of approx. 12 m²-14 m² (depending on demand for booth space) up to four single booths, or to rent a company table located in a common, designated area. The Pavilion will also consist of public meeting spaces, private meeting spaces set up in a “business lounge” format, and space for catering facilities including a kitchen .

ASMI estimates that four Alaska seafood companies will choose to have “large” booths (equivalent to three to four single booths), that two companies will choose “medium” booths (equivalent to two single booths), that six to eight companies will choose “standard” single booths, and that two to four companies will choose “mini” booths (equivalent to half of a single booth). Proposals should demonstrate design elements to create cohesive Alaska branding throughout the pavilion as well as allow for individual companies to define their brands within their own booth space. As much as possible, the “large” booths should have equally advantageous locations within the Pavilion.

In addition to the expected booth allocations described above, ASMI estimates that five to ten Alaska seafood companies will choose to have a company table in the common, designated area.

Please note that an option for a second story “business lounge” must be included in the proposal, as well as an option without a second story “business lounge”. (Please see Appendix 3 for examples of ASMI pavilion designs at recent international trade shows, which included a business lounge.)

The pavilion designer will have access to ASMI’s extensive photo and video library to create the visual elements to be used in the construction of the Alaska Seafood Pavilion. The Pavilion should include visual and construction elements that can be used throughout multiple show years.

The entirety of the Pavilion must be covered with cohesive flooring.

Stand 5C401 will feature (246m², open on 4 sides):

- The Alaska Seafood Center of Operations
 - Alaska Seafood Tasting Bar & Kitchen
 - Min. 4 meters bar service area
 - 2-4 m² prep. kitchen and storage area,
 - water connection with sink
 - refrigerator
 - electrical connection

During the show, ASMI provides beverages and food from the catering facilities and the tasting bar to staff, co-exhibitors and visitors. ASMI hires waiters and rents kitchen equipment. During lunchtime, Alaska seafood meals are served at the booth. On the first day of the show, ASMI hosts a reception in the Pavilion from 4:30 p.m. to 6:00 p.m local time. The design must also accommodate and highlight a potential location for the reception to take place with only a few temporary alterations (such as removing sit-down tables, adding stand up tables, etc.)

 - At least 3 meters of shelving
 - Coat hanger for at least 20 coats
 - A bank of lockable cabinets valuables

An offeror's failure to provide this information, within the time set, may cause the state to consider their proposal non-responsive and reject it. The substitution of one subcontractor for another may be made only at the discretion and prior written approval of the project director.

Note that if the subcontractor will not be performing work within Alaska, they will not be required to hold an Alaska business license.

SEC. 3.09 JOINT VENTURES

Joint ventures will not be allowed.

SEC. 3.10 RIGHT TO INSPECT PLACE OF BUSINESS

At reasonable times, the state may inspect those areas of the contractor's place of business that are related to the performance of a contract. If the state makes such an inspection, the contractor must provide reasonable assistance.

SEC. 3.11 CONTRACT PERSONNEL

Any change of the project team members or subcontractors named in the proposal must be approved, in advance and in writing, by the project director or procurement officer. Changes that are not approved by the state may be grounds for the state to terminate the contract.

SEC. 3.12 INSPECTION & MODIFICATION - REIMBURSEMENT FOR UNACCEPTABLE DELIVERABLES

The contractor is responsible for the completion of all work set out in the contract. All work is subject to inspection, evaluation, and approval by the project director. The state may employ all reasonable means to ensure that the work is progressing and being performed in compliance with the contract. The project director or procurement officer may instruct the contractor to make corrections or modifications if needed in order to accomplish the contract's intent. The contractor will not unreasonably withhold such changes.

Substantial failure of the contractor to perform the contract may cause the state to terminate the contract. In this event, the state may require the contractor to reimburse monies paid (based on the identified portion of unacceptable work received) and may seek associated damages.

SEC. 3.13 CONTRACT CHANGES - UNANTICIPATED AMENDMENTS

During the course of this contract, the contractor may be required to perform additional work. That work will be within the general scope of the initial contract. When additional work is required, the project director will provide the contractor a written description of the additional work and request the contractor to submit a firm time schedule for accomplishing the additional work and a firm price for the additional work. Cost and pricing data must be provided to justify the cost of such amendments per AS 36.30.400.

The contractor will not commence additional work until the procurement officer has secured any required state approvals necessary for the amendment and issued a written contract amendment, approved by ASMI's Executive Director.

SEC. 3.14 NONDISCLOSURE AND CONFIDENTIALITY

Contractor agrees that all confidential information shall be used only for purposes of providing the deliverables and performing the services specified herein and shall not disseminate or allow dissemination of confidential information except as provided for in this section. The contractor shall hold as confidential and will use reasonable care (including both facility physical security and electronic security) to prevent unauthorized access by, storage, disclosure, publication, dissemination to and/or use by third parties of, the confidential information. "Reasonable care" means compliance by the contractor with all applicable federal and state law, including the Social Security Act and HIPAA. The contractor must promptly notify the state in writing if it becomes aware of any storage, disclosure, loss, unauthorized access to or use of the confidential information.

Confidential information, as used herein, means any data, files, software, information or materials (whether prepared by the state or its agents or advisors) in oral, electronic, tangible or intangible form and however stored, compiled or memorialized that is classified confidential as defined by State of Alaska classification and categorization guidelines provided by the state to the contractor or a contractor agent or otherwise made available to the contractor or a contractor agent in connection with this contract, or acquired, obtained or learned by the contractor or a contractor agent in the performance of this contract. Examples of confidential information include, but are not limited to: technology infrastructure, architecture, financial data, trade secrets, equipment specifications, user lists, passwords, research data, and technology data (infrastructure, architecture, operating systems, security tools, IP addresses, etc).

If confidential information is requested to be disclosed by the contractor pursuant to a request received by a third party and such disclosure of the confidential information is required under applicable state or federal law, regulation, governmental or regulatory authority, the contractor may disclose the confidential information after providing the state with written notice of the requested disclosure (to the extent such notice to the state is permitted by applicable law) and giving the state opportunity to review the request. If the contractor receives no objection from the state, it may release the confidential information within 30 days. Notice of the requested disclosure of confidential information by the contractor must be provided to the state within a reasonable time after the contractor's receipt of notice of the requested disclosure and, upon request of the state, shall seek to obtain legal protection from the release of the confidential information.

The contractor shall not be required to indemnify the contracting agency for a claim of, or liability for, the independent negligence of the contracting agency. If there is a claim of, or liability for, the joint negligent error or omission of the contractor and the independent negligence of the contracting agency, the indemnification and hold harmless obligation shall be apportioned on a comparative fault basis. "Contractor" and "contracting agency", as used within this and the following article, include the employees, agents and other contractors who are directly responsible, respectively, to each. The term "independent negligence" is negligence other than in the contracting agency's selection, administration, monitoring, or controlling of the contractor and in approving or accepting the contractor's work.

SEC. 3.16 INSURANCE REQUIREMENTS

Without limiting contractor's indemnification, it is agreed that contractor shall purchase at its own expense and maintain in force at all times during the performance of services under this agreement the following policies of insurance. Where specific limits are shown, it is understood that they shall be the minimum acceptable limits. If the contractor's policy contains higher limits, the state shall be entitled to coverage to the extent of such higher limits.

Certificates of Insurance must be furnished to the procurement officer prior to beginning work and must provide for a notice of cancellation, non-renewal, or material change of conditions in accordance with policy provisions. Failure to furnish satisfactory evidence of insurance or lapse of the policy is a material breach of this contract and shall be grounds for termination of the contractor's services. All insurance policies shall comply with and be issued by insurers licensed to transact the business of insurance under AS 21.

Workers' Compensation Insurance: The contractor shall provide and maintain, for all employees engaged in work under this contract, coverage as required by AS 23.30.045, and; where applicable, any other statutory obligations including but not limited to Federal U.S.L. & H. and Jones Act requirements. SEC. 3.17 TERMINATION FOR DEFAULT

If the project director or procurement determines that the contractor has refused to perform the work or has failed to perform the work with such diligence as to ensure its timely and accurate completion, the state may, by providing written notice to the contractor, terminate the contractor's right to proceed with part or all of the remaining work.

This clause does not restrict the state's termination rights under the contract provisions of Appendix A.

Individuals designated by the procurement officer at the state's expense will make site inspection.

SEC. 6.04 CLARIFICATION OF OFFERS

In order to determine if a proposal is reasonably susceptible for award, communications by the procurement officer or the proposal evaluation committee (PEC) are permitted with an offeror to clarify uncertainties or eliminate confusion concerning the contents of a proposal. Clarifications may not result in a material or substantive change to the proposal. The evaluation by the procurement officer or the PEC may be adjusted as a result of a clarification under this section.

SEC. 6.05 DISCUSSIONS WITH OFFERORS

The state may conduct discussions with offerors in accordance with AS 36.30.240 and 2 AAC 12.290. The purpose of these discussions will be to ensure full understanding of the requirements of the RFP and proposal. Discussions will be limited to specific sections of the RFP or proposal identified by the procurement officer. Discussions will only be held with offerors who have submitted a proposal deemed reasonably susceptible for award by the procurement officer. Discussions, if held, will be after initial evaluation of proposals by the procurement officer or the PEC. If modifications are made as a result of these discussions they will be put in writing. Following discussions, the procurement officer may set a time for best and final proposal submissions from those offerors with whom discussions were held. Proposals may be reevaluated after receipt of best and final proposal submissions.

If an offeror does not submit a best and final proposal or a notice of withdrawal, the offeror's immediate previous proposal is considered the offeror's best and final proposal.

Offerors with a disability needing accommodation should contact the procurement officer prior to the date set for discussions so that reasonable accommodation can be made. Any oral modification of a proposal must be reduced to writing by the offeror.

SEC. 6.06 EVALUATION OF PROPOSALS

The procurement officer, or an evaluation committee made up of at least three state employees, ASMI committee members or ASMI contractors, will evaluate proposals. The evaluation will be based solely on the evaluation factors set out in **SECTION 5. EVALUATION CRITERIA AND CONTRACTOR SELECTION**.

After receipt of proposals, if there is a need for any substantial clarification or material change in the RFP, an amendment will be issued. The amendment will incorporate the clarification or change, and a new date and time established for new or amended proposals. Evaluations may be adjusted as a result of receiving new or amended proposals.

SEC. 6.07 CONTRACT NEGOTIATION

After final evaluation, the procurement officer may negotiate with the offeror of the highest-ranked proposal. Negotiations, if held, shall be within the scope of the request for proposals and limited to those items which would not have an effect on the ranking of proposals. AS 36.30.560 provides that an interested party may protest the content of the RFP.

An interested party is defined in 2 AAC 12.990(a) (7) as "an actual or prospective bidder or offeror whose economic interest might be affected substantially and directly by the issuance of a contract solicitation, the award of a contract, or the failure to award a contract."

If an interested party wishes to protest the content of a solicitation, the protest must be received, in writing, by the procurement officer at least ten days prior to the deadline for receipt of proposals.

AS 36.30.560 also provides that an interested party may protest the award of a contract or the proposed award of a contract.

If an offeror wishes to protest the award of a contract or the proposed award of a contract, the protest must be received, in writing, by the procurement officer within ten days after the date the Notice of Intent to Award the contract is issued.

A protester must have submitted a proposal in order to have sufficient standing to protest the proposed award of a contract. Protests must include the following information:

- the name, address, and telephone number of the protester;
- the signature of the protester or the protester's representative;
- identification of the contracting agency and the solicitation or contract at issue;
- a detailed statement of the legal and factual grounds of the protest including copies of relevant documents; and the form of relief requested.

Protests filed by telex or telegram are not acceptable because they do not contain a signature. Fax copies containing a signature are acceptable.

The procurement officer will issue a written response to the protest. The response will set out the procurement officer's decision and contain the basis of the decision within the statutory time limit in AS 36.30.580. A copy of the decision will be furnished to the protester by certified mail, fax or another method that provides evidence of receipt.

All offerors will be notified of any protest. The review of protests, decisions of the procurement officer, appeals, and hearings, will be conducted in accordance with the State Procurement Code (AS 36.30), Article 8 "Legal and Contractual Remedies."

To take advantage of these preferences, a business or individual must be on the appropriate Division of Vocational Rehabilitation list prior to the time designated for receipt of proposals. Offerors must attach a copy of their certification letter to the proposal. **An offeror's failure to provide this certification letter with their proposal will cause the state to disallow the preference.**

An offeror does not need to complete the Alaska Veteran Preference questions on the form if not claiming the Alaska Veteran Preference. An offeror's failure to provide this completed form with their proposal will cause the state to disallow the preference.

If the contractor has a claim arising in connection with the agreement that it cannot resolve with the State by mutual agreement, it shall pursue the claim, if at all, in accordance with the provisions of AS 36.30.620 – AS 36.30.632.
